ABOUT ME

I am an experienced pastry chef and baker. I've baked with Martha Stewart, taught class with Jacque Torres, and published recipes. I've always been interested in how things work and how they can break. Looking for a career shift, a friend suggested I explore coding. I gave it a shot and really liked it. I hope to use my project management skills and desire for learning to become part of a development team that has a strong desire to succeed.

WORK EXPERIENCE

APPRENTICE SOFTWARE DEVELOPER
Nashville Software School | 2016 - Present

12 month, part-time, intensive software bootcamp emphasizing modern full-stack development and technologies such as JavaScript, AngularJS, and .NET. Developed and deployed individual and group apps and interactive software focusing on industry best practices.

ASSOCIATE TEAM LEADER
Whole Foods Market | 2011 -2017

Managed daily operations for a full service bakery and patisserie. Strong emphasis on team building and planning by using WFM software such as StoreOps, HART, Workday, and IRMA. Worked closely with the regional bakery coordinator in the planning and execution of opening seven new bakeries throughout the southeast..

PROJECTS

PLAYDATE
www.blairvansant.com/playdate

An app that allows users to register, log in, plan and keep up with playdates. The user can add their own kids and their friends, select dates, and check the weather for the coresponding play date.

STAPLES
www.blairvansant.com/staples

An app that allows users to keep track of typical pantry staples. Users create "staples" in the app and are able to keep track of how long they last, and alerts users when they should purchase more of that item.

Education

Nashville Software School, Nashville, TN 2016 - Present
Institute of Culinary Education, NY, NY 2003 - 2005
